

Your partner in Change

Welcome to Advisory Beavers, a Dutch limited company!

We are an European operating business consulting company and support our clients with operationalizing their strategy. Work more efficient and effective at lower cost and therefore higher profit.

Advisory Beavers is a no nonsense company. We tell like it is and do what we stand for. Only in this way we add value to our clients. We focus on truly realizing results for our clients and feel responsible for success even after completion of the assignment. We strive for sustainable solutions and offer value for money.

Outsource your program or project office

Flexible costs

We support setup and strategic positioning of the program office and deliver professional staff quickly to support you, whenever you're not able to release capacity yourself or consciously require to have flexible cost and want the program office to be setup and managed entirely by us.

Your organization will be supported with the setup and staffing of high quality program offices to support one or several program managers

Program offices usually last long and hold a lot of people. Depending on the setup some of the staff are temporarily enlisted by the program office and will be released when the program terminates.

Ultimately the entire program office can be setup, staffed and managed by us during the entire programs life cycle. In this way you have all costs made flexible.

Deliverables

The program office supports the program management with the following tasks:

- ➔ Delivery and update of program plans
- ➔ Delivery of manuals and easy to use formats to support program management
- ➔ Collecting and integrating program reports
- ➔ Setup meetings
- ➔ Implementing governance criteria for the program
- ➔ Delivery of professional program communication
- ➔ Executing stakeholder analysis
- ➔ Setup management of risks, changes, issues, quality, tolerance and escalation and reporting
- ➔ Administering of hours spent, costs and invoices and setup of financial reports
- ➔ Onboarding of new hires and arranging of facilities

How can we support you?

- ➔ Program and project management
- ➔ Management of large and complex programs and projects
- ➔ Interim management
- ➔ Project Portfolio Management
- ➔ Program and project offices
- ➔ Software selection & implementation
- ➔ Data audit, analysis and migration
- ➔ Process (re)design
- ➔ Process optimization
- ➔ Business Consultancy

Product and service information

Do you want to know more about setting up program and project offices or about how to make these costs flexible?

Please contact us open-ended for a presentation about setting up program and project offices and how to make these costs flexible.
